THE SMOOT TYPE 6 ROTARY AIRLOCK Designed for the Most Abrasive Materials

The **Type 6** airlock is constructed to withstand the most abrasive of materials. Built with rugged NiHard steel, a closed end rotor constructed of carbon steel, and Stellite on wear surfaces the Type 6 will outlast your toughest materials.

Type 6 Features:

- Super abrasion-resistant design
- Cylinder constructed of cast NiHard
- Closed end rotor constructed of carbon steel with Stellite on wear surfaces
- Outboard bearings with 3 molyurethane u-cup packing rings per side
- Chain and sprocket drive with guard
- Supplied with black neoprene open cell sponge rubber flange gaskets

Smoot, a division of Magnum Systems, is a leader in pneumatic conveying systems and components. For over 50 years Smoot has provided customers with versatile, cost effective, pneumatic conveying equipment, and continues this trend today. For more information about Smoot, go to their website at www.smootco.com or call 1-800-748-7000.
